

Human Impacts on Birds

Every-day human activities kill five billion birds each year in the U.S.*

Graph Data Source: US Fish and Wildlife Service, study by Wallace P. Erickson, Gregory D. Johnson, and David P. Young Jr.

What you can do to protect birds and bats in your own back yard:

- Spay or neuter your house cat
- Switch to unleaded bullets for hunting
- Make improvements to fencing
- Help preserve wildlife habitat
